

Consulting • Engineering • Implementation

**Excellence in sustainable energy
and climate change consulting**

ITP is one of the world's leading sustainable energy and climate change consultancies.

GLOBAL REACH

Established in the UK in 1981 as IT Power, ITP now has a global network of offices in Africa, Australia, China, India and Latin America, in addition to its HQ in Bristol and offices in London. The company has delivered more than 1,500 projects in over 120 countries.

TEAM OF EXPERTS

Today ITP employs experienced international experts across a range of engineering, clean energy, technical, financial, policy, economic and business consulting disciplines to provide expert advisory services to skilfully deliver your project. ITP's Quality Assurance System is certified to ISO 9001 2008.

BROAD CLIENT BASE

ITP's clients range from multilateral agencies such as the World Bank Group and the United Nations, through to industrial multinationals, renewable energy project developers, private equity firms, technology companies and investors. ITP also advises governments as well as Non-Governmental Organisations (NGOs) on energy and climate change aspects of international development.

PIONEERING PROJECTS

Our past project experience is comprehensive. From the management of the EU-funded regional renewable energy and energy efficiency programme in the Pacific Islands to pioneering R&D work on marine energy including managing the design and deployment of tidal current turbines.

PROJECT DELIVERY

ITP is ideally placed to satisfy all of your project delivery needs and offers a comprehensive list of services including:

- Resource and energy yield determination
- Market assessment
- Economic and technology feasibility
- Engineering R&D
- Due diligence services
- Project management
- Low carbon strategies

CONSULTING YOU CAN TRUST

If you are seeking expert advisory services and a business partner with extensive expertise and experience in every aspect of sustainable energy project delivery, adaptation to climate change and low carbon solutions, ITP has the skills and experience to deliver.

ITP - YOUR FIRST CHOICE FOR SUSTAINABLE ENERGY AND CLIMATE CHANGE SOLUTIONS
